DETAILED ACTION

Claims 21-33 are pending in this application.

Claim Rejections - 35 USC § 112

1. Claims 21-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, all pending independent claims are written with a double pre-amble. This renders the claim indefinite because it is unclear which limitation(s) are intended to be part of the claim body and which are not part of the claimed invention. Appropriate correction is required.

Allowable Subject Matter

All claims in this case contain allowable subject matter if viewed as a whole including giving all sections of the preambles patentable weight. If the 112 problems as noted above are fixed and all sections of the preambles are brought into the claim body or otherwise noted as claim limitations, all claims would be allowable.
